Disable Microsoft Office 365 Recommended Feed

Brian - 2024-01-30 - Email and Collaboration

Follow these steps to disable the Recommended Feed in your FAU provided Office 365 apps and experiences.

NOTE: It may take a few hours or days before you stop receiving file recommendations.

🕐 You've turned off this feature. You'll stop receiving recommendations, and your collaboration won't be used to calculate recommendations to those you work with.
When this feature is on, your collaborative work in Microsoft 365 helps to calculate which content is recommended to you and to those you work with. For example, recommendations might show up as documents or SharePoint sites in profile cards. Delve. Office.com, and other locations.
