

Instructor iClicker Mobile App

Christine Clevenger - 2024-02-27 - Instructional Resources

Using iClicker Mobile Instructor App

1. Verify your iClicker Cloud Desktop software version (must be at least version 4.2.2)
 1. In order to use iClicker Cloud Mobile, you must have the latest iClicker Cloud desktop software.
2. Download iClicker Mobile from the App Store or the Google Play Store.
3. Sign into the app using the same account credentials you use for the iClicker Cloud desktop software and instructor website.
4. Launch iClicker **on the computer**, select your course, and start a polling session.
 1. Once the floating iClicker menu has launched on the computer, the iClicker Cloud Mobile app will detect that a polling session is running.
5. Return to the app. You will now see your course appear on the "Courses" screen of the app. Select your course name to take control of the session with the iClicker Cloud Mobile app.

RUNNING A POLLING SESSION ON A MOBILE/TABLET DEVICE

The image displays three sequential screenshots of the iClicker mobile app interface, illustrating the steps to run a polling session. Each screenshot is annotated with a numbered instruction and an arrow pointing to the relevant UI element.

- Screenshot 1:** Shows the 'Ask a Question' screen. A red box highlights the 'Multiple Choice' button. An arrow points to it with the instruction: '1. Select Question Type'. Below it, a red box highlights the play button, with an arrow pointing to it and the instruction: '2. Start Polling Session'. At the bottom, a red box highlights the 'Control Presentation' button, with an arrow pointing to it and the instruction: '3. View # of responses as poll is running →'.
- Screenshot 2:** Shows the 'Control Presentation' screen. A red box highlights the red stop button. An arrow points to it with the instruction: '4. Stop the Polling Session'. Below it, a red box highlights the 'Results' button in the bottom navigation bar, with an arrow pointing to it and the instruction: '5. View the results'.
- Screenshot 3:** Shows the 'Results' screen. A red box highlights the bar chart. An arrow points to it with the instruction: '6. Tap on bar to mark correct response'. Below it, a red box highlights the 'Toggle Results on Desktop' button, with an arrow pointing to it and the instruction: '7. Show students the results'. At the bottom, a red box highlights the home button in the bottom navigation bar, with an arrow pointing to it and the instruction: '8. Return to "Home"'.
