Online Training: Flipped Classroom: Theory and Practice

Marcelle Gornitsky - 2019-12-05 - Training

There has been much research on flipping the classroom in Medical Education. Some medical schools are doing a hybrid approach, while others are attempting a fully flipped format. Are you ready to flip your classroom? This workshop gives a step by step guide on how to get started.

The Flipped Classroom workshop objectives are as follows:

- Explain the pedagogical theory behind flipped classrooms
- Develop a personal philosophy on how the flipped classroom can be incorporated into your curriculum
- Construct a sample lesson plan that follows the flipped classroom model
