

OwlMed: Calendar Overview

Jeff Clark - 2024-06-14 - OwlMed and Canvas

Calendar Tab in OwlMed

The Calendar acts as a central information hub and resource, providing users with quick access to their schedule and tools to manage their events in Leo. In this article, users have multiple ways to customize their calendar, ranging from Day, Week, Month and List view as well as various filter options.

Calendar Menu Options

The Leo Calendar tab offers you many options for viewing your schedule, managing materials, accessing courses, sending and receiving messages, and much more.

(1) Click on date(s) to the future or the past in increments of Days, Weeks or Months.

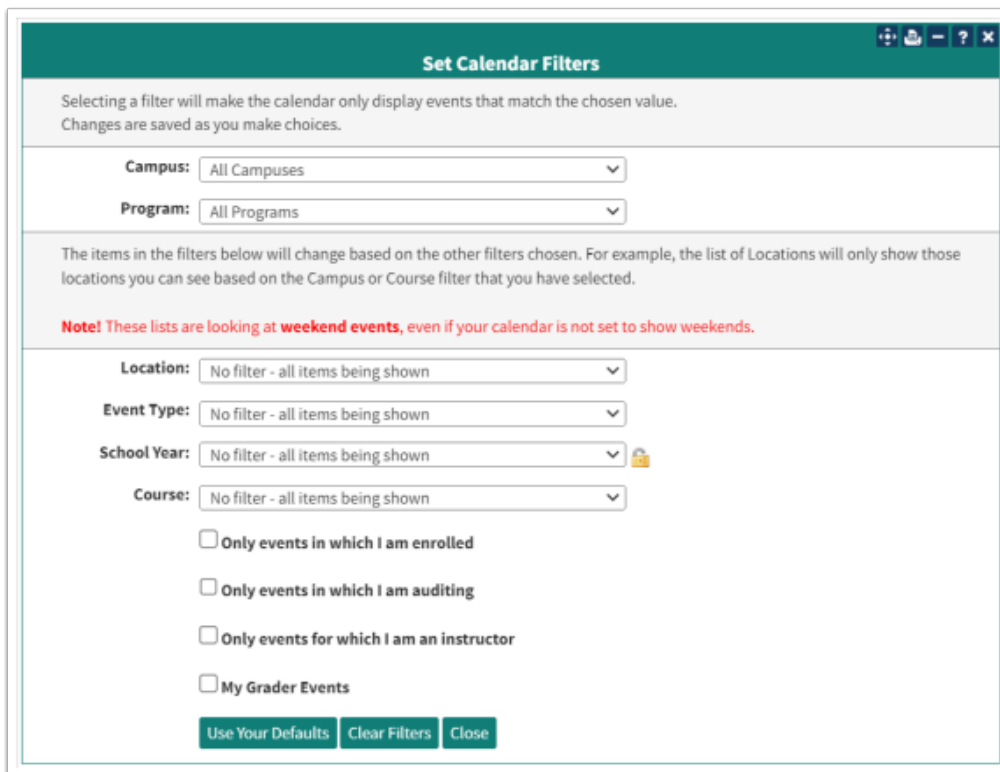

(2) The Calendar views can be set to Today, Day, Week, Month or List.

(3) Setting Calendar Filters

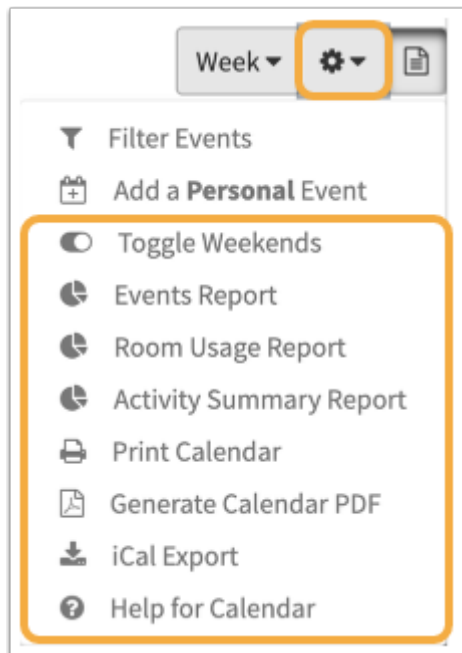

Set Calendar Filters

- The **Set Calendar Filters** feature allows Users to set personal preference defaults and/or clear filters that they are currently using on their calendar.
- Users can select their Campus and Program, as well as, School Year and Course or choose to see only Events in which they are either enrolled in, auditing, the instructor, or are serving as a Grader for.

Gear Icon

- Use the Gear Icon drop-down menu to view Calendar options including available reports, export and print options for the Leo Calendar tab.

- **Toggle Weekends:** On/off on the calendar.
- **Events Report:** This report shows a list of all of the events in your current calendar view.
- **Room Usage Report:** This report shows a list of all rooms including a hyperlink count of Events utilizing each location.
- **Activity Summary Report:** This report provides a summary list of activities for a given date range.
- **Print Calendar:** Print directly to a printer or as a PDF file.
- **Generate Calendar PDF:** Set your own preferences for a PDF file of the calendar. See example below.
- **iCal Export:** Create an iCal calendar export file and set your own preferences. See example below.
- **Help for Calendar:** This is a listing of color codes used in the Calendar along with a description of where the color is used. This information will either be based on Course color or Event color. If Course color, the calendar will display each event with the color of the course to which the event belongs. If based on Event Types, you will be presented with a key listing out each type of event and its corresponding color.
