Windows 11 Upgrade

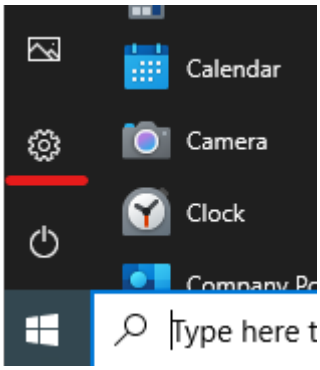

Brian - 2026-11-09 - Office/Windows Support

Windows 11 upgrade from Windows 10

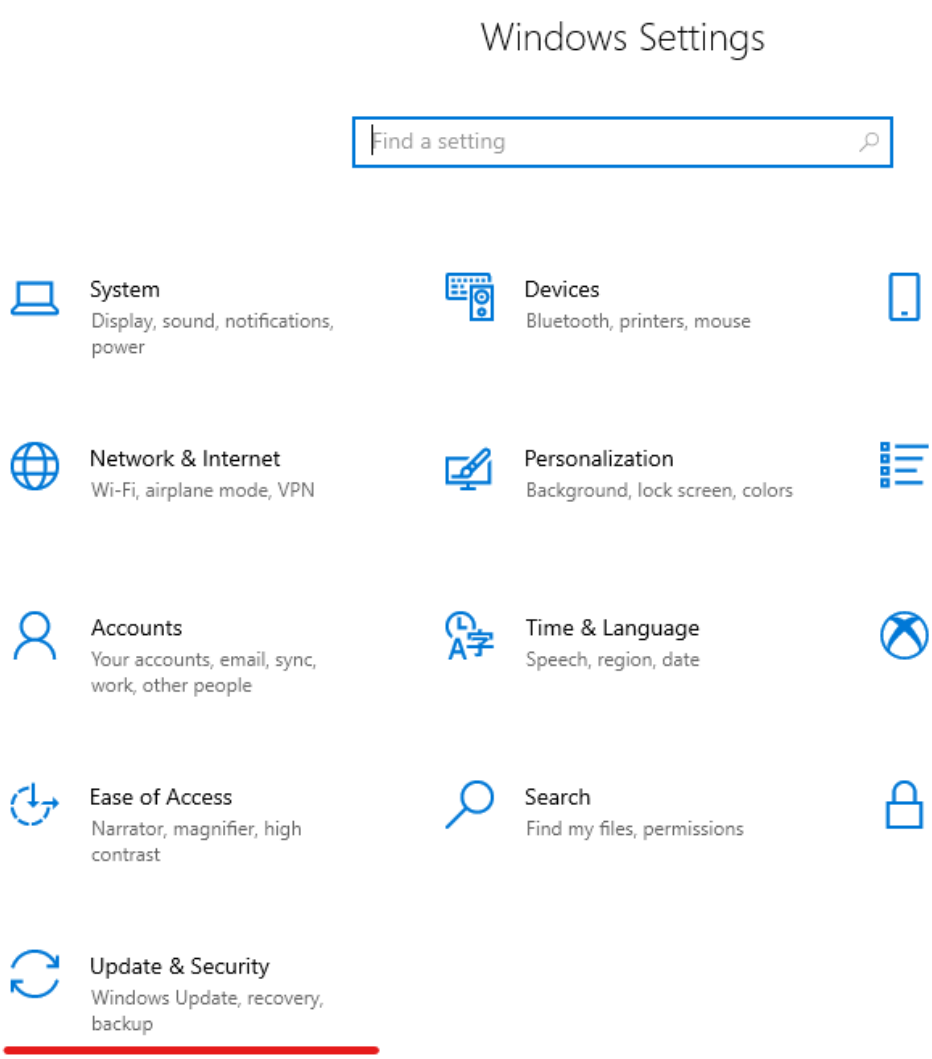

1. Click on the Start button in the lower left corner of your taskbar.

1. Click on the gear icon to open Windows Settings.

1. Click on Updates & Security.

1. Click Check for Updates.

    1. If there are any outstanding Windows 10 updates, they must be completed before Windows 11 will install. This may require multiple computer reboots to complete.

2. You will see Windows 11, version 24H2, this download may take up to an hour or more if your internet connection is slow.

3. Once completed, you will be prompted to reboot your computer, this reboot process will take up to an hour to finish.
