Canvas: Creating an Assignment

Samantha Starr - 2025-04-07 - OwlMed and Canvas

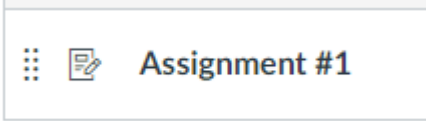

How to Create an Assignment in Canvas

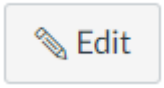

Option 1:

1. Locate **Module** you want to add an assignment and select the plus sign 
2. Select **[Create Assignment]** then **Assignment Name** and **Add Item**

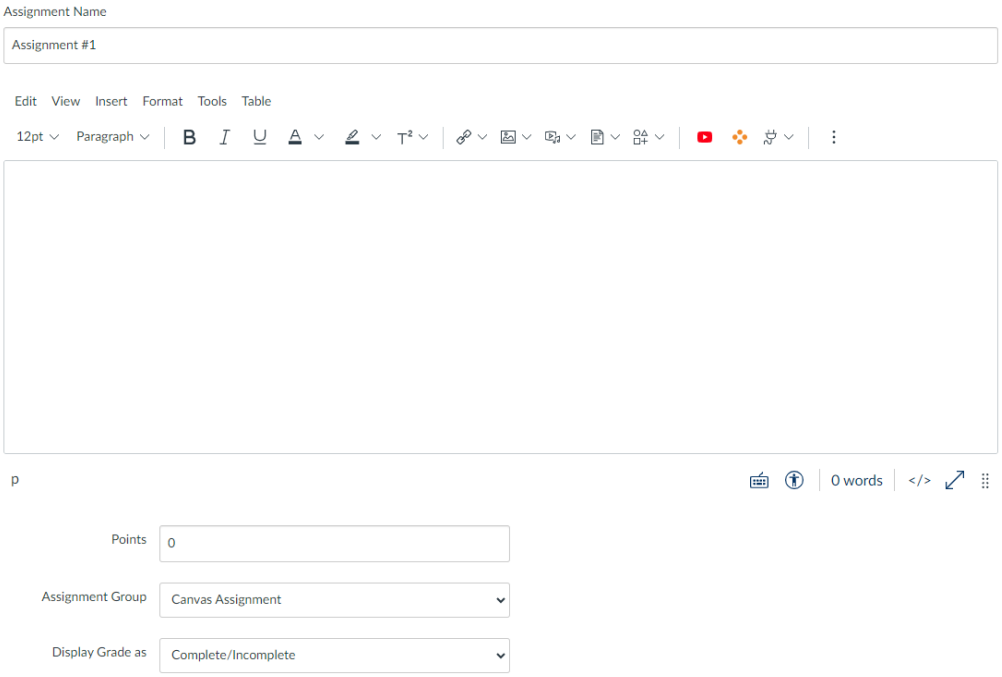

3. Select the newly created **Assignment**

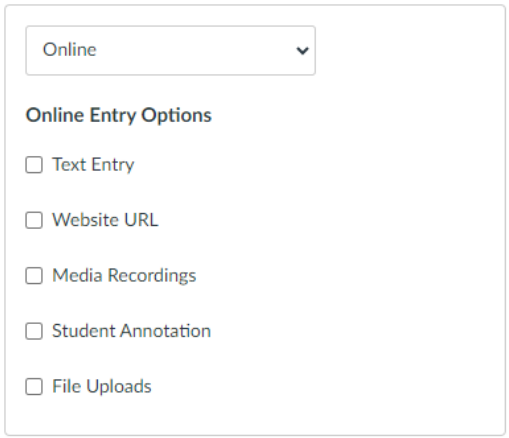

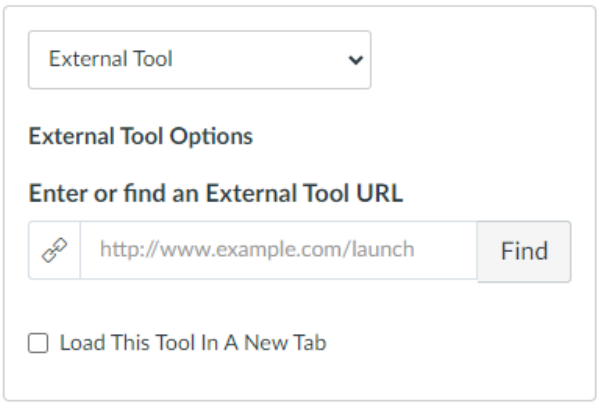

4. Select **Edit**
5. Add **Assignment Details**

6. Locate **Submission Type**
    1. Select **No Submission, Online, On Paper, or External Tool**

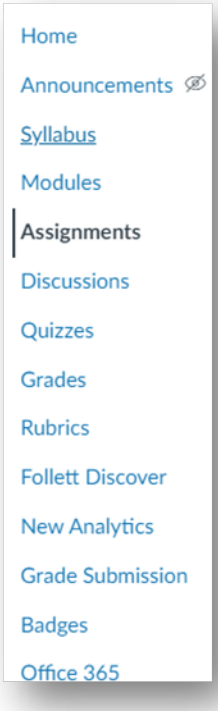

[**Tip:** Use External

Tool and select **Find** to search for and use turnitin to detect plagiarism, grammar, check, and access to grading tools]

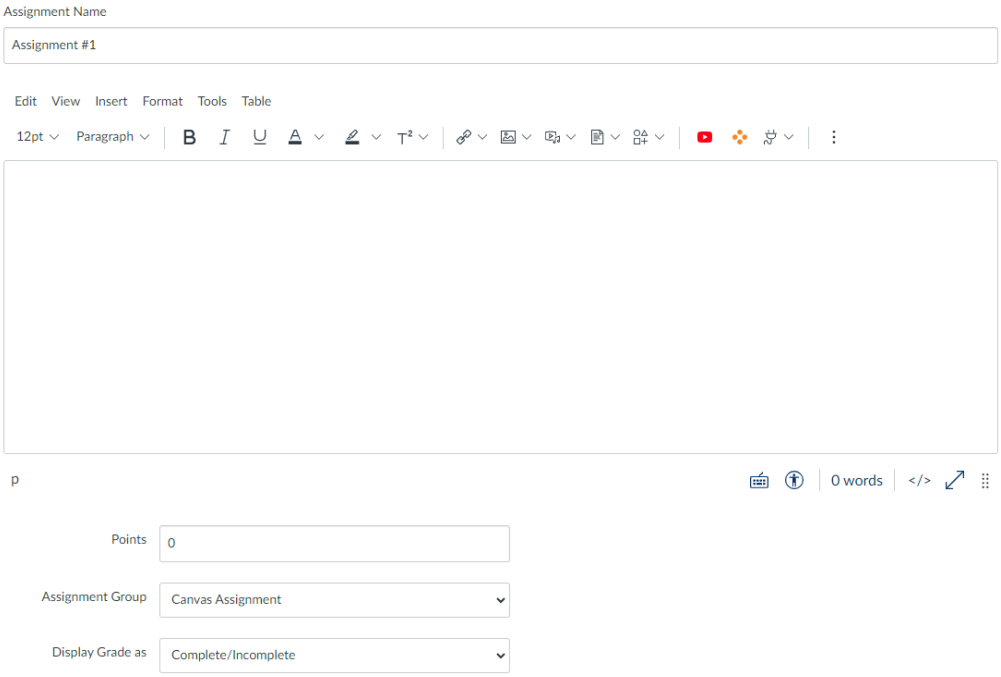

7. Select **Entry Option**
8. Select **Save & Publish** or **Save**
    1. Save & Publish-Available to students enrolled in the course
    2. Save-Continue working on an assignment before publishing for students to view

Option 2:

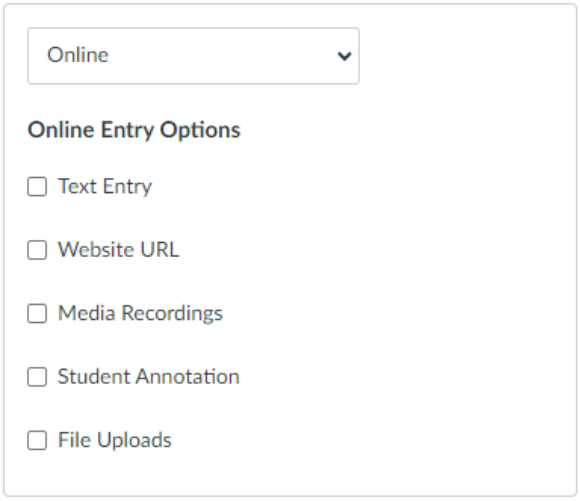

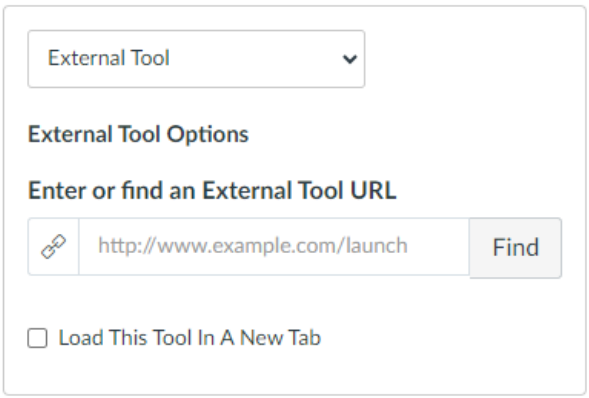

1. Select **Assignments** on the left column
2. Select add **Assignment** button 

3. Add **Assignment Details**

4. Locate **Submission Type**
    1. Select **No Submission, Online, On Paper, or External Tool**

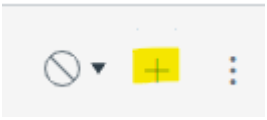

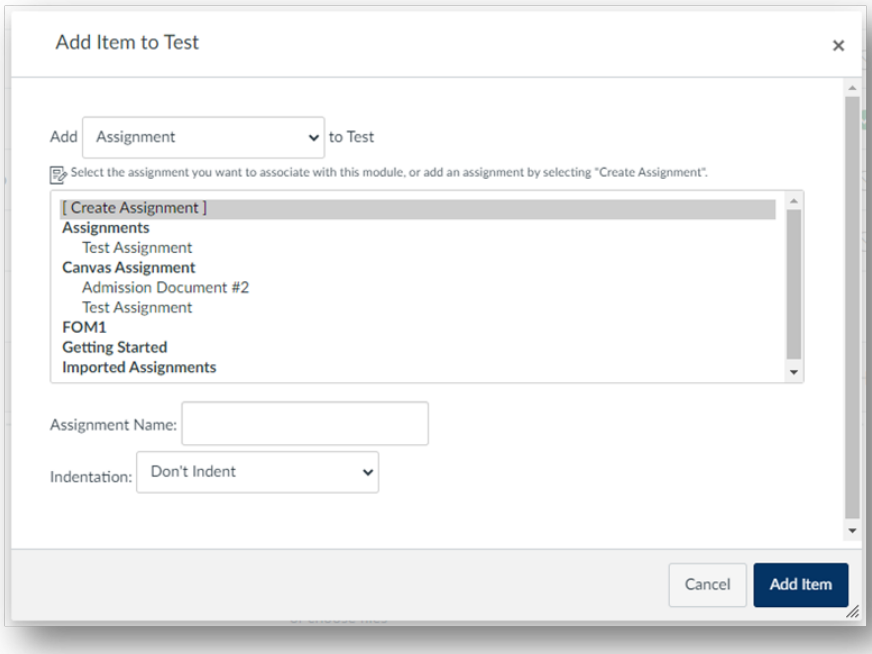

5. Select **Entry Option**

6. Select **Save & Publish** or **Save**

    1. **Save & Publish**-Available to students enrolled in the course
    2. **Save**-Continue working on assignment before publishing for students to view
7. Optional: add new assignment to a module
    1. Locate **Module** you want to add an assignment and select the plus sign 
    2. Select **Assignment Name** and **Add Item**
