Microsoft Booking: Creating a Booking

[SEE VIDEO HERE](#)

1. Go to Outlook.FAU.edu or Sharepoint.FAU.edu
2. Log in using your FAU account
3. In Microsoft 365, select the App launcher (the waffle menu), and then select **Bookings**.
4. In the navigation pane, select **Calendar > New booking**.

5. Select the service to be provided. See [Define your service offerings in Microsoft Bookings](#) for service setup instructions.
6. Enter the customer information, including name, email address, phone number, and other relevant details.
7. Select the staff member to provide the service. The list of staff members shown is based on what you set up on the services page.

A screenshot of the Microsoft Bookings form. The form is divided into two main sections: 'Customer information' and 'Staff'. The 'Customer information' section has fields for name (Anton Hagi), email (ahagi@litwareinc.com), phone number (111-111-1111), customer address, and a text area with the note 'Has skied several times but never took lessons'. The 'Staff' section is titled 'Choose one or more staff for the service' and lists four staff members: Kian Lambert (KL, No conflicts), Mia Garner (MG, No conflicts), Elliot Price (EP, No conflicts), and Samantha Patterson (SP, Off work all day). The Elliot Price option is highlighted with a red box and has a checkmark next to it.

8. Enter the service details, including date, time, location, and other relevant

information. Once you enter a valid email address for the customer, you'll see a note telling you that a confirmation will be sent to the customer. The customer confirmation includes an attachment for them to add to their calendar. Selected staff members will also receive meeting invitations with the appointment information so they can add it to their personal calendars.

9. Select **Add an email reminder**.
10. Specify when the reminder should be sent, where it should be sent (**Customer, Staff, All attendees**), and what the reminder message should be.
11. <https://www.microsoft.com/en-us/videoplayer/embed/RE4Zd77?postjsllMsg=true>
12. Select **Create booking**.

Here's an example email of the reminder your customer will receive:

Lamna Healthcare
