iClicker Cloud: Polling Session during a Lecture

---

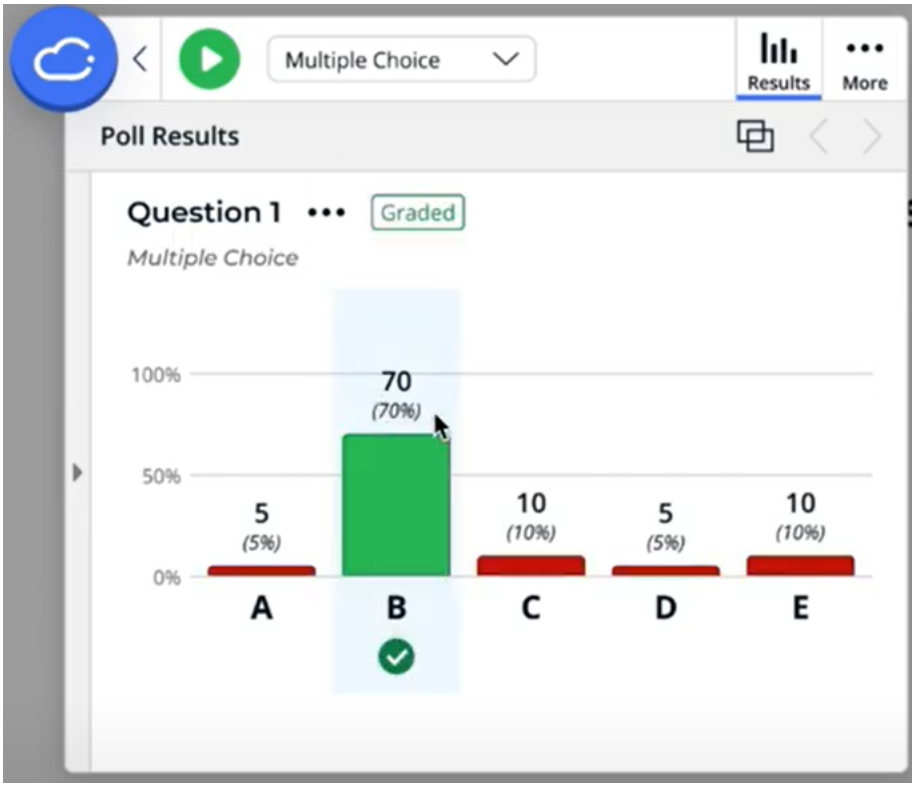

1. Open your PowerPoint presentation
2. Login to **iClicker Cloud** desktop app 

3. Locate **course** and select **Start Class**
4. iClicker menu will appear on your screen

5. To begin, select **Poll** then **Play** for your desired question type

6. Select your **desktop screen** then **Share** to have students view the question on their device

7. Students will begin answering the question
8. Once you are ready to share results, select **Stop** then **Results** to **select the correct answer**.

9. Click on **Results** to minimize the results window
10. Move your presentation to the next slide then repeat the process
