- Class 2 - Poll** 3/4 pts  
You participated in a poll.

Statistics **Class History** Assignments Study Tools

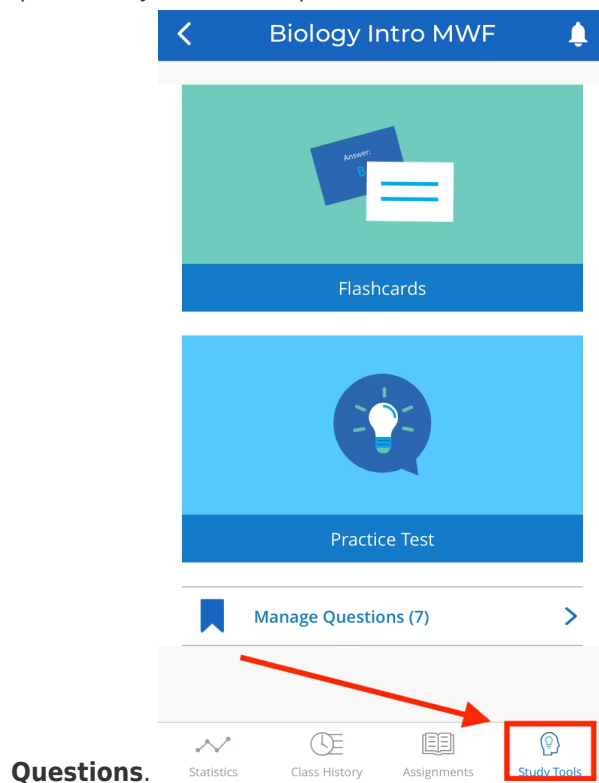

2. Select the bookmark icon in the upper-right corner of each question you'd like to add to Study Tools.
3. Select the back arrow to exit the activity.
4. You can repeat these steps with as many past activities as you'd like.
  1. Keep in mind that when you use Study Tools, you will be reviewing all of your currently flagged questions, even if you have flagged questions from multiple

class sessions.

Navigate to "Study Tools"

1. Navigate to the **Study Tools** section of your iClicker course. If you have flagged questions, you will see options for **Flashcards**, **Practice Test**, and **Manage**

Use flashcards

1. Select **Flashcards** to study with the questions you flagged. The front side of each flashcard contains the question image and the back contains the correct answer.

## Flashcards

In-Class Question: Multiple Choice

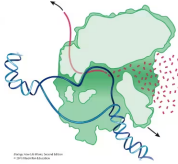

Why aren't **nucleosides** incorporated into DNA?

- A. The bases are not fully assembled.
- B. The sugar is not in the right form.
- C. There are no phosphates to make the phosphodiester bonds.
- D. The peptide bonds don't form.

In-Class Question: Target

Where in this figure does the **RNA polymerase** action occur?

In-Class Question: Numeric

In the DNA of certain bacterial cells, 16% of the nucleotides are **adenine**. What is the percentage of **guanine** in the bacterial DNA?

## Flashcards

C

In-Class Question: Target

Where in this figure does the **RNA polymerase** action occur?

In-Class Question: Numeric

In the DNA of certain bacterial cells, 16% of the nucleotides are **adenine**. What is the percentage of **guanine** in the bacterial DNA?

2. Simply tap or click on the flashcard to flip it over.

Take a practice test

1. You can quiz yourself on the questions you've flagged by selecting **Practice Test**.
2. Submit your answers for each question
3. Check answer was correct or incorrect.
4. Use the **Next Question** button to move on when you're ready.

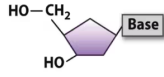

## Practice Test

Question 1 of 7

In-Class Question: Multiple Choice

Why aren't **nucleosides** incorporated into DNA?

- A. The bases are not fully assembled.
- B. The sugar is not in the right form.
- C. There are no phosphates to make the phosphodiester bonds.
- D. The peptide bonds don't form.

Your Answer

C

Correct

Correct Answer

C

Next Question

5. After you complete a practice test, you will see a summary of your performance.
6. You can choose to take the practice test again with all the questions or only the ones you missed.
7. Select the **X** in the upper-left corner to exit the practice test and return to the **Study**

## Practice Test

You got 5/7 correct.

Study again to gain a better understanding of the material.

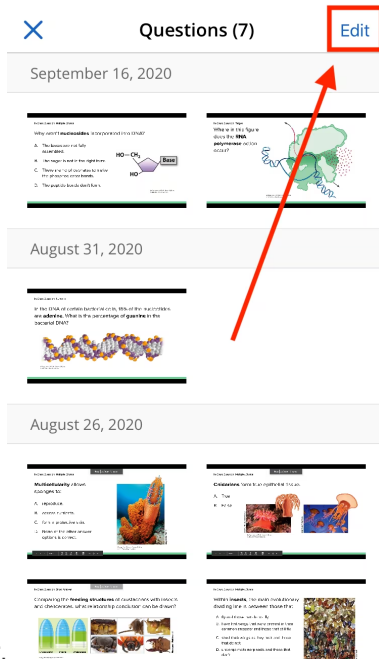

Study All Questions

Study Missed Questions

**Tools** screen.

## Manage questions

1. Select **Manage Questions** to view all of your flagged questions, organized by class date. You can remove questions from your Study Tools by selecting **Edit** in the

upper-right corner.

2. Choose any questions you'd like to take out of Study Tools, then select **Remove**.
3. Those questions will no longer be included in flashcards or the practice test.
4. **Note:** You can also remove Study Tools questions by selecting an activity from your **Class History**.
5. Click or tap on the blue bookmark icon of any flagged questions you wish to unflag (the icon will turn white).

If needed, you can add removed questions back to Study Tools at any time.
