## iClicker: Student Study Tools

Ankit Shah - 2023-06-22 - \*M1 Student Materials\*

Student iClicker Study Tools

Flag a question

From the **Class History** section, select a past polling activity.

The screenshot shows the 'Biology Intro MWF' interface with a list of activities. The 'Class 3 - Poll' activity is highlighted with a red box. A red arrow points from the 'Class History' icon in the bottom navigation bar to this activity.

Date	Activity	Score
September 16, 2020	Chapter 3 Quiz	5/8 pts
	Class 3 - Poll	3/5 pts
	Class 3 - Attendance	✓
August 31, 2020	Class 2 - Quiz 1	5/7 pts
	Class 2 - Poll	2/3 pts
	Class 2 - Poll	3/4 pts

Bottom navigation bar: Statistics, **Class History**, Assignments, Study Tools

Select the bookmark icon in the upper-right corner of each question you'd like to add to

Study Tools. After flagging all of the questions you'd like to review, select the back arrow to exit the activity.

You can repeat these steps with as many past activities as you'd like. Keep in mind that when you use Study Tools, you will be reviewing all of your currently flagged questions, even if you have flagged questions from multiple class sessions. We'll cover [managing your Study Tools questions](#) below.

**Class 3 - Poll**

Total Questions: 5      Score: 3 of 5

**Question 1** (Flagged)      0

In-Class Question: Multiple Choice

Why aren't **nucleosides** incorporated into DNA?

- A. The bases are not fully assembled.
- B. The sugar is not in the right form.
- C. There are no phosphates to make the phosphodiester bonds.
- D. The peptide bonds don't form.

**Question 2** (Correct)      +1

In-Class Question: Short Answer

Comparing the **feeding structures** of crustaceans with insects and chelicerates, what relationship conclusion can be drawn?

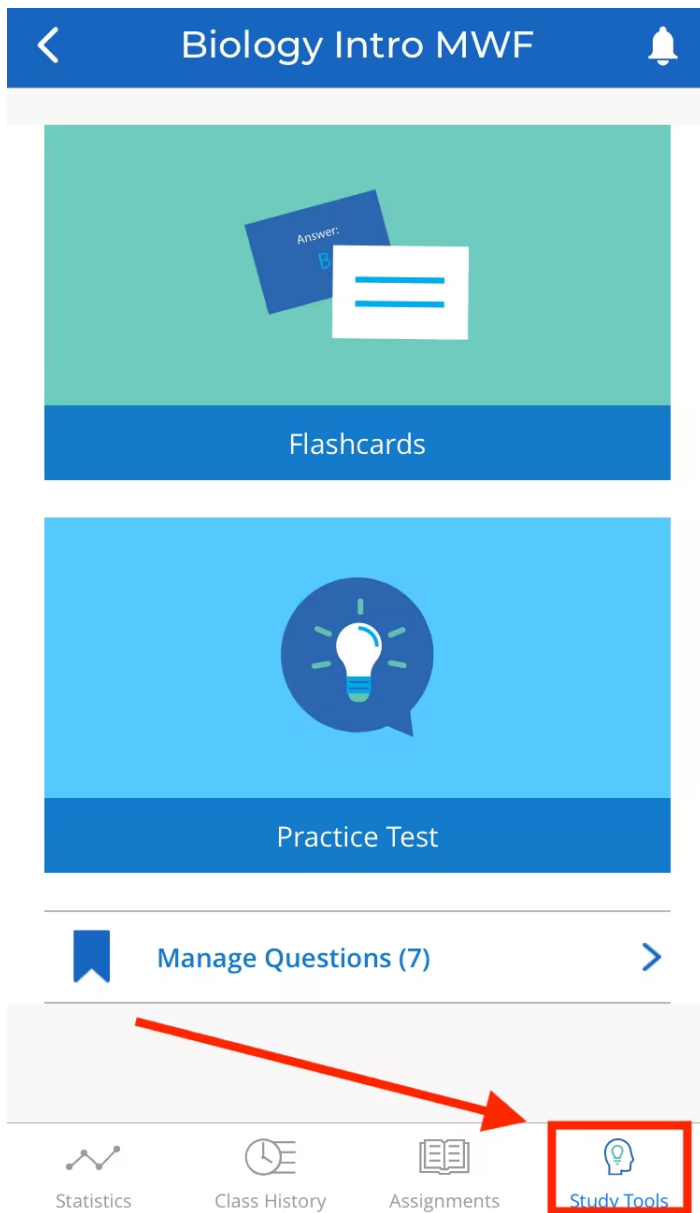

**Question 3** (Correct)      +1

Navigate to "Study Tools"

Navigate to the **Study Tools section** of your iClicker course. If you have flagged questions, you will see options for **Flashcards**, **Practice Test**, and **Manage Questions**. If you have

not yet flagged questions, you will see a screen that reads "You don't have any questions yet."

[Return to top.](#)

Use flashcards

Select **Flashcards** to study with the questions you flagged. The front side of each flashcard contains the question image and the back contains the correct answer.

## Flashcards

In-Class Question: Multiple Choice

Why aren't **nucleosides** incorporated into DNA?

- A. The bases are not fully assembled.
- B. The sugar is not in the right form.
- C. There are no phosphates to make the phosphodiester bonds.
- D. The peptide bonds don't form.

In-Class Question: Numeric

In the DNA of certain bacterial cells, 16% of the nucleotides are **adenine**. What is the percentage of **guanine** in the bacterial DNA?

Simply tap or click on the flashcard to flip it over.

Take a practice test

You can quiz yourself on the questions you've flagged by selecting **Practice Test**.

Submit your answers for each question and immediately find out if your answer was correct or incorrect. Use the **Next Question** button to move on when you're ready.

## Practice Test

Question 1 of 7

In-Class Question: Multiple Choice

Why aren't **nucleosides** incorporated into DNA?

- A. The bases are not fully assembled.
- B. The sugar is not in the right form.
- C. There are no phosphates to make the phosphodiester bonds.
- D. The peptide bonds don't form.

Your Answer

C

Correct

Correct Answer

C

Next Question

After you complete a practice test, you will see a summary of your performance. You can choose to take the practice test again with all the questions or only the ones you missed.

Select the **X** in the upper-left corner to exit the practice test and return to the **Study Tools** screen.

## Practice Test

---

You got 5/7 correct.

Study again to gain a better understanding of the material.

### Manage questions

Select **Manage Questions** to view all of your flagged questions, organized by class date. You can remove questions from your Study Tools by selecting **Edit** in the upper-right corner.

# Questions (7)

Edit

September 16, 2020

**Why aren't nucleosides** incorporated into DNA?

Why aren't nucleosides incorporated into DNA?

- The bases are not fully assembled.
- The sugar is not in the right form.
- There are no phosphates to make the phosphate ester bonds.
- The phosphate bonds don't form.

**Where in this figure** does the RNA polymerase action occur?

August 31, 2020

**In the DNA** of certain bacterial cells, 16% of the nucleotides are adenine. What is the percentage of guanine in the bacterial DNA?

August 26, 2020

**Multicellularity** allows sponges to:

- reproduce.
- access nutrients.
- form a protective shell.
- None of the other answer options is correct.

**Cnidarians** form true epithelial tissue.

- True
- False

Comparing the **feeding structures** of crustaceans with insects and cheilicerates, what relationship conclusion can be drawn?

Within **insects**, the main evolutionary dividing line is between those that:

- fly and those that do not fly.
- have true wings and those that do not have true wings.
- have three legs and those that have four legs.
- use gas trachea to breathe and those that don't.

Choose any questions you'd like to take out of Study Tools, then select **Remove**. Those questions will no longer be included in flashcards or the practice test.

**Note:** You can also remove Study Tools questions by selecting an activity from your **Class History**. Click or tap on the blue bookmark icon of any flagged questions you wish to unflag (the icon will turn white).

If needed, you can add removed questions back to Study Tools at any time by following the steps [outlined above](#).
