iClicker: Student Study Tools

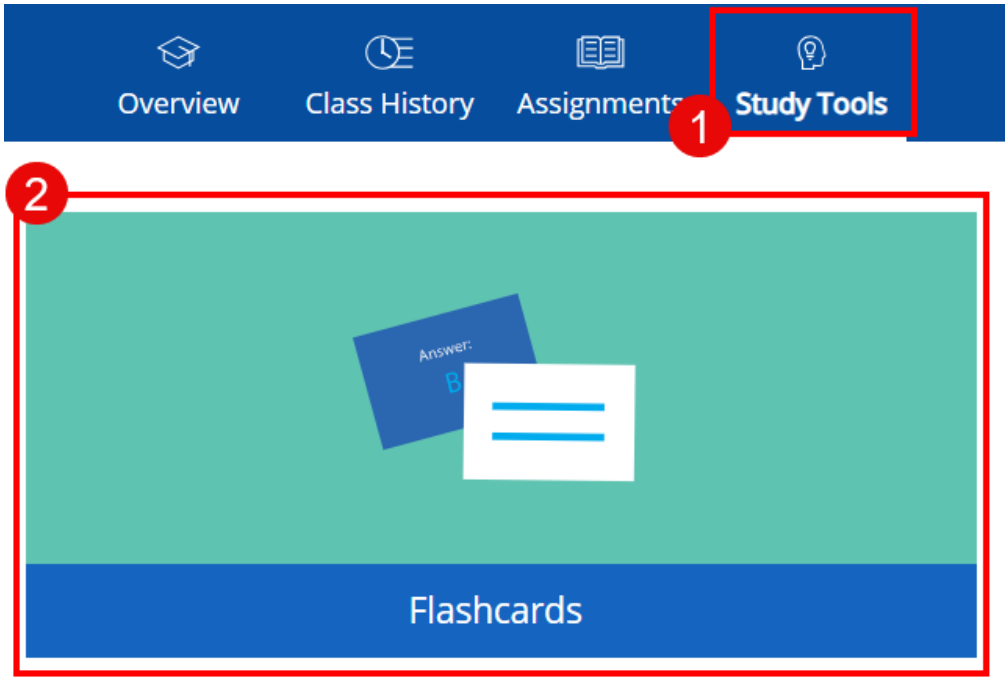
Using flashcards

Flashcards allow you to review individual questions you've marked.

1. Select **Study Tools** in your course.
2. Click **Flashcards**.

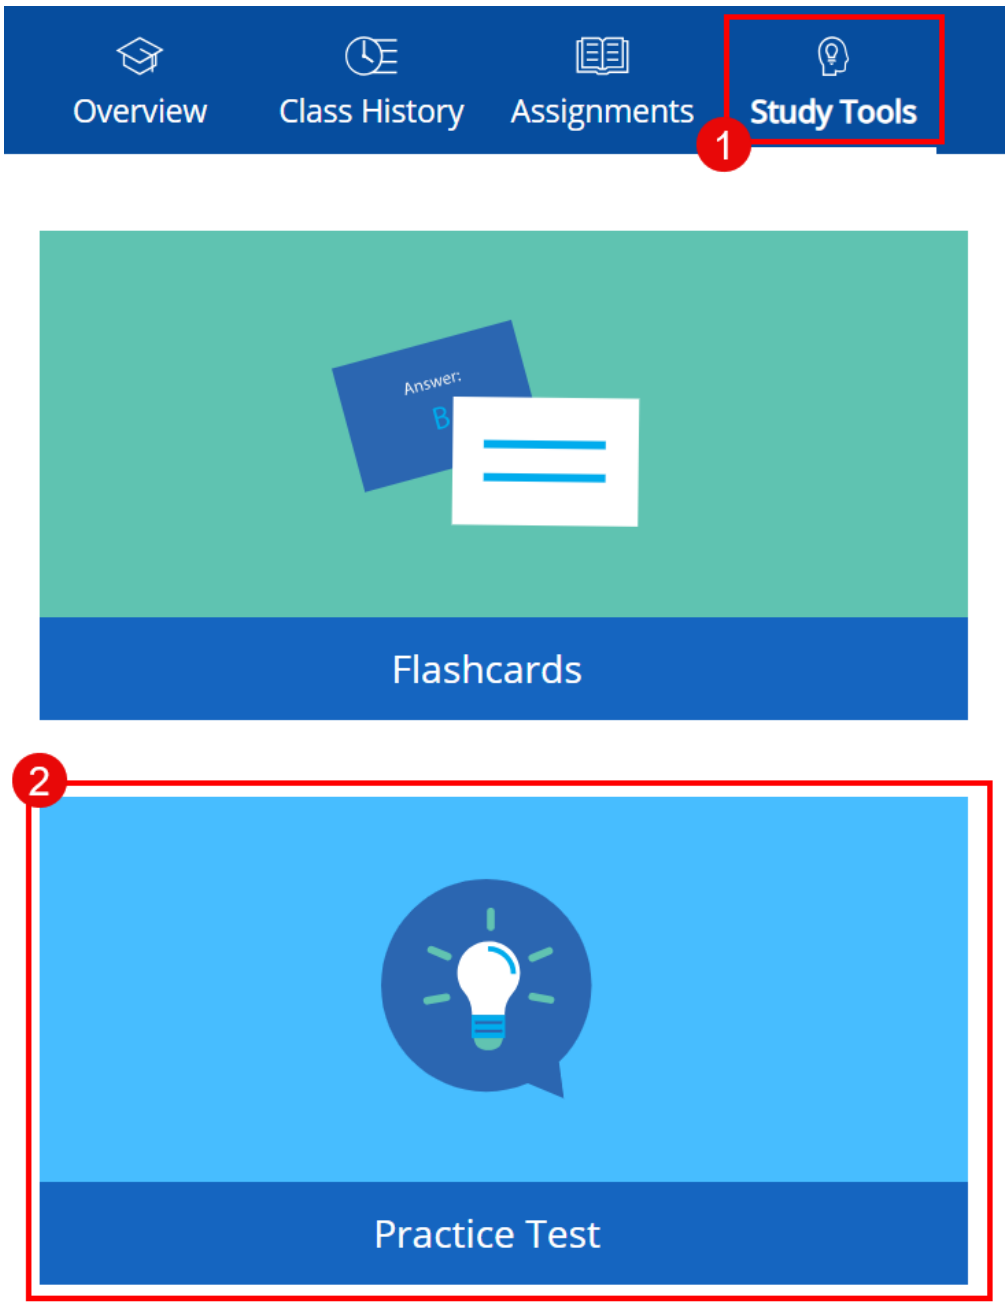


The front of each flashcard shows the question image, and the back shows the correct answer. Click a card to flip it and view the correct answer.

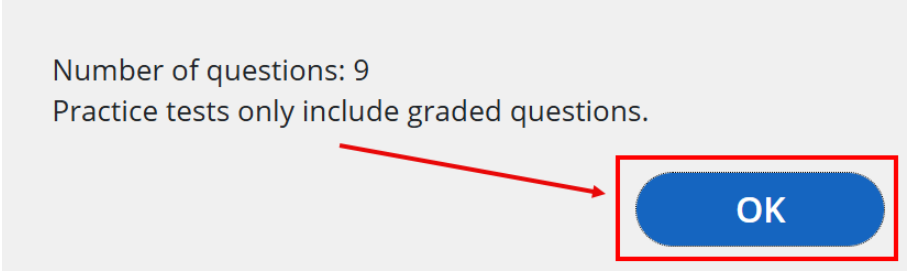
Using practice tests

Practice tests allow you to quiz yourself on the questions you've marked.

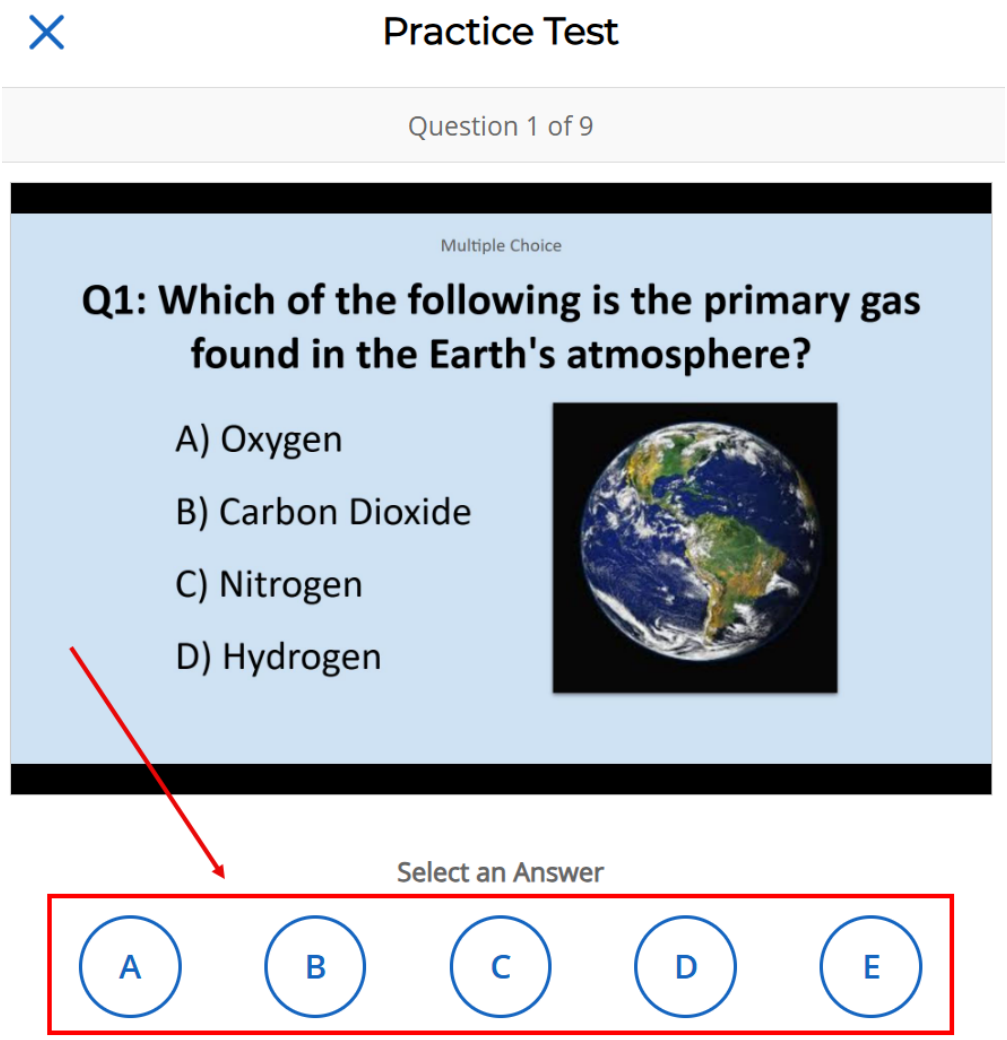
1. Select **Study Tools** in your course.
2. Click **Practice Test**.



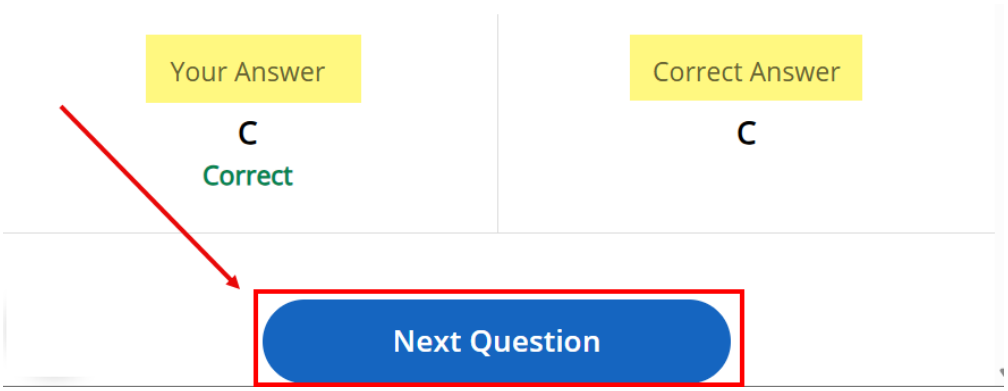
Click **OK** to begin the practice test.



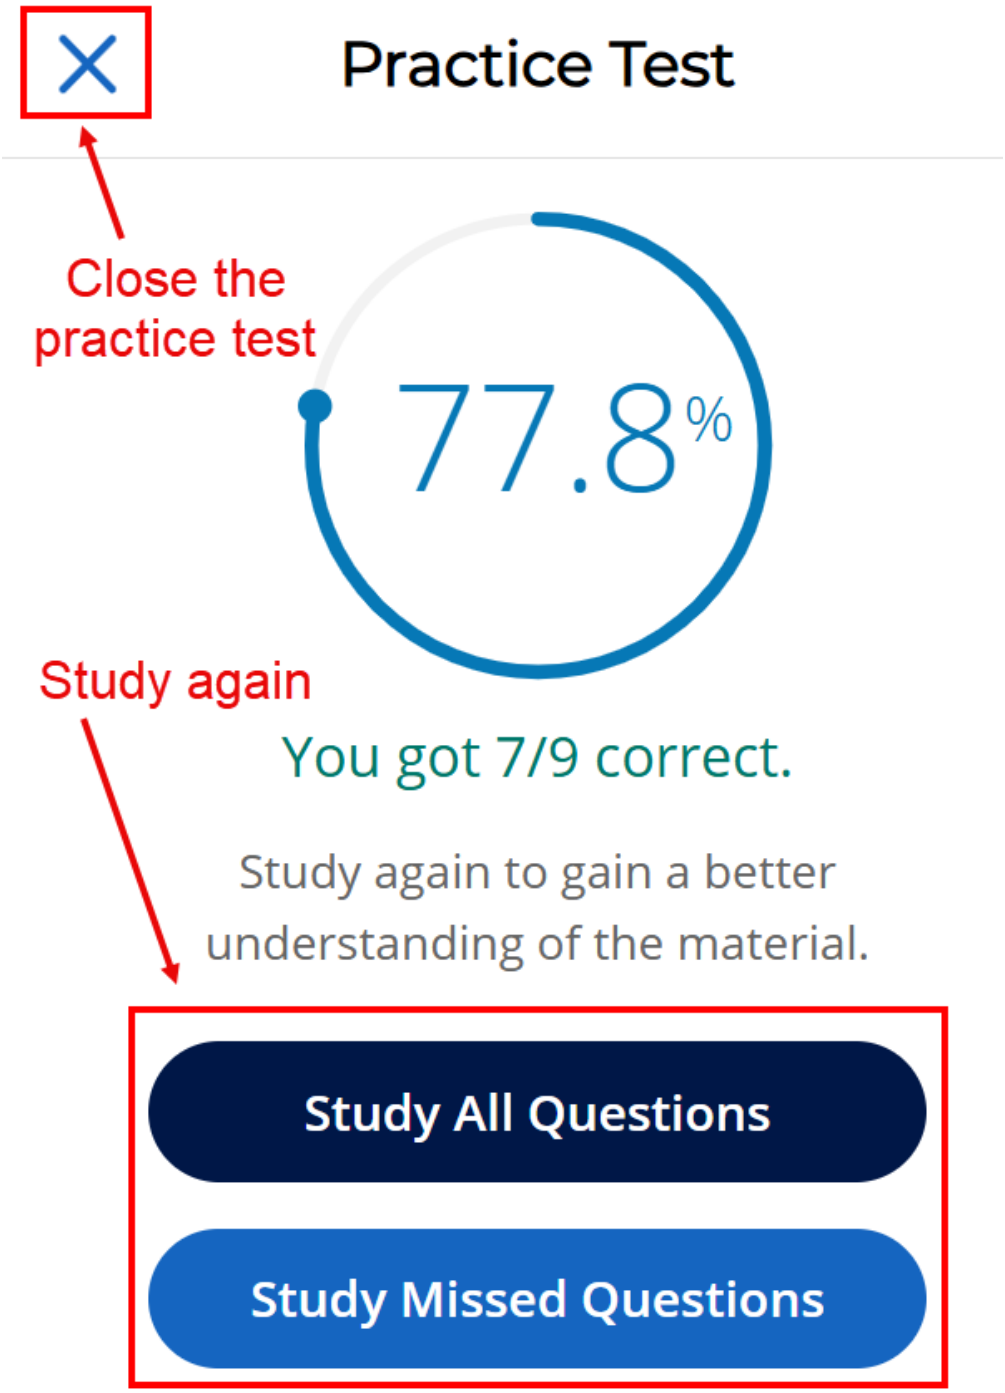
Select or send your **answer** for the question.



Review the correct answer and click **Next Question** to move on. (On the last question, click **Finish** to complete the practice test.)



When you finish your practice test, click **Study All Questions** or **Study Missed Questions** to study again, or click the **X** to close it.

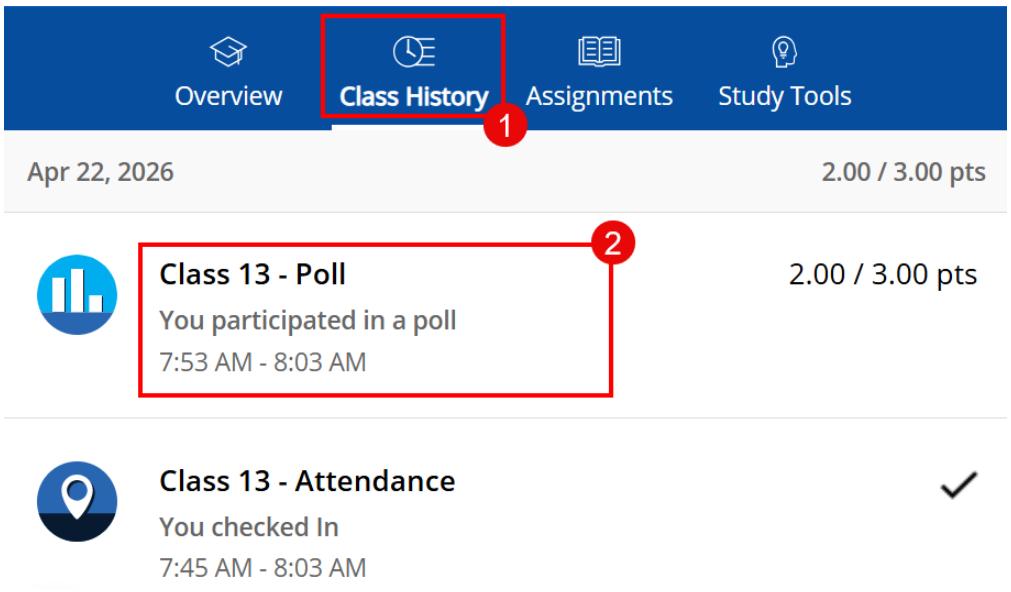


Marking questions for study tools

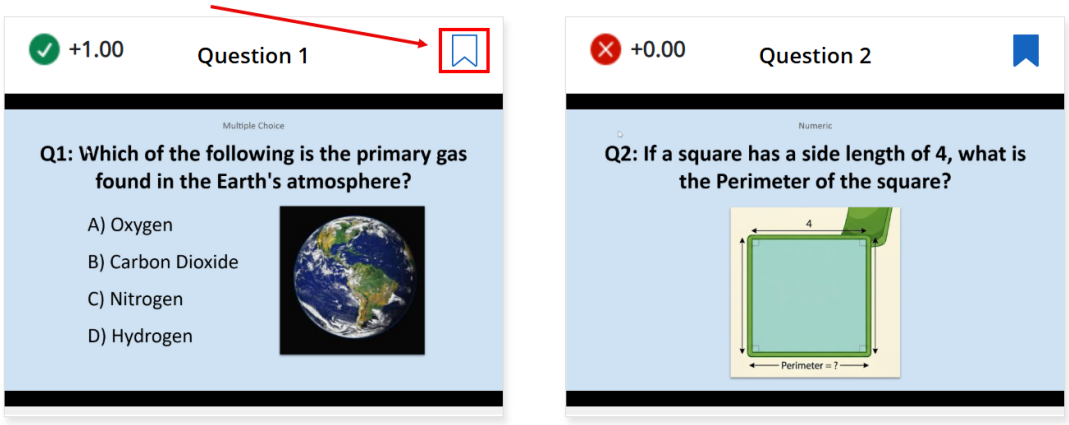
You can identify specific questions to include in your study materials either during a live session or while reviewing past results. (You can only add questions to Study Tools if your instructor shares question screenshots with your class.)

To mark a question from a past activity:

1. Select **Class History** in the iClicker student app.
2. Select the **past activity** you want to view.

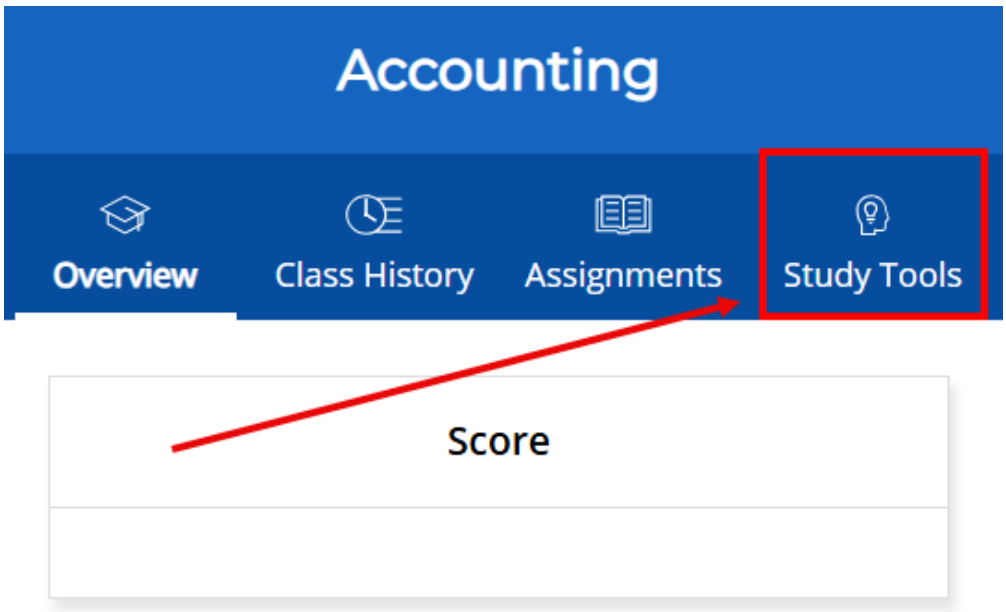


Select the **Study Tool (bookmark)** icon on the question you wish to save. (To remove a question, select the icon again.)



Accessing study tools

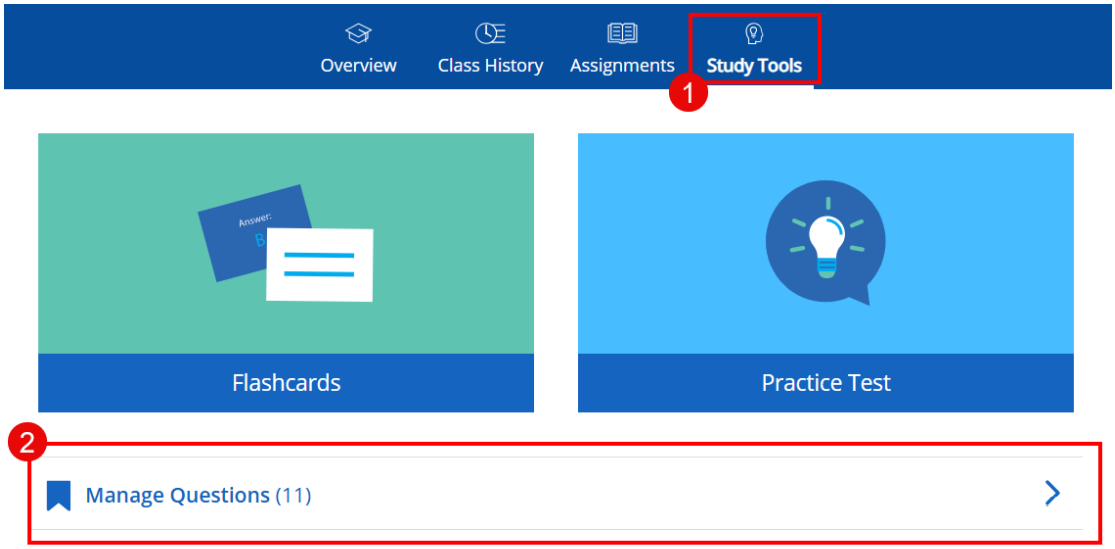
To use iClicker's study tools, select **Study Tools** in your course.



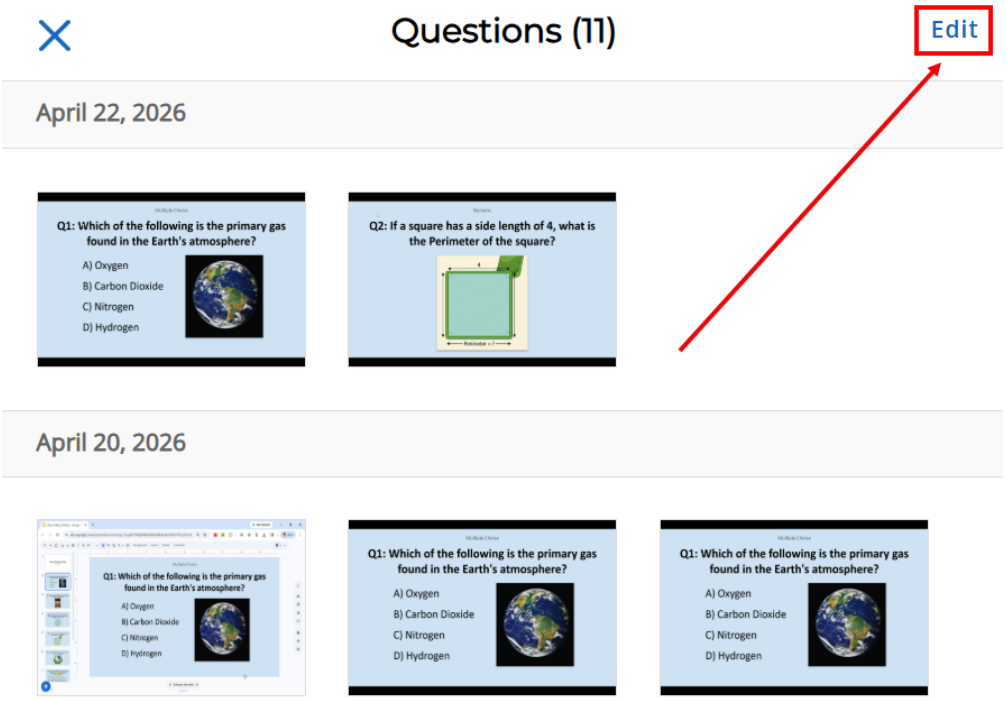
View or remove questions in study tools

You can view or remove individual questions you've marked to study. These questions will be available in flashcards and practice tests.

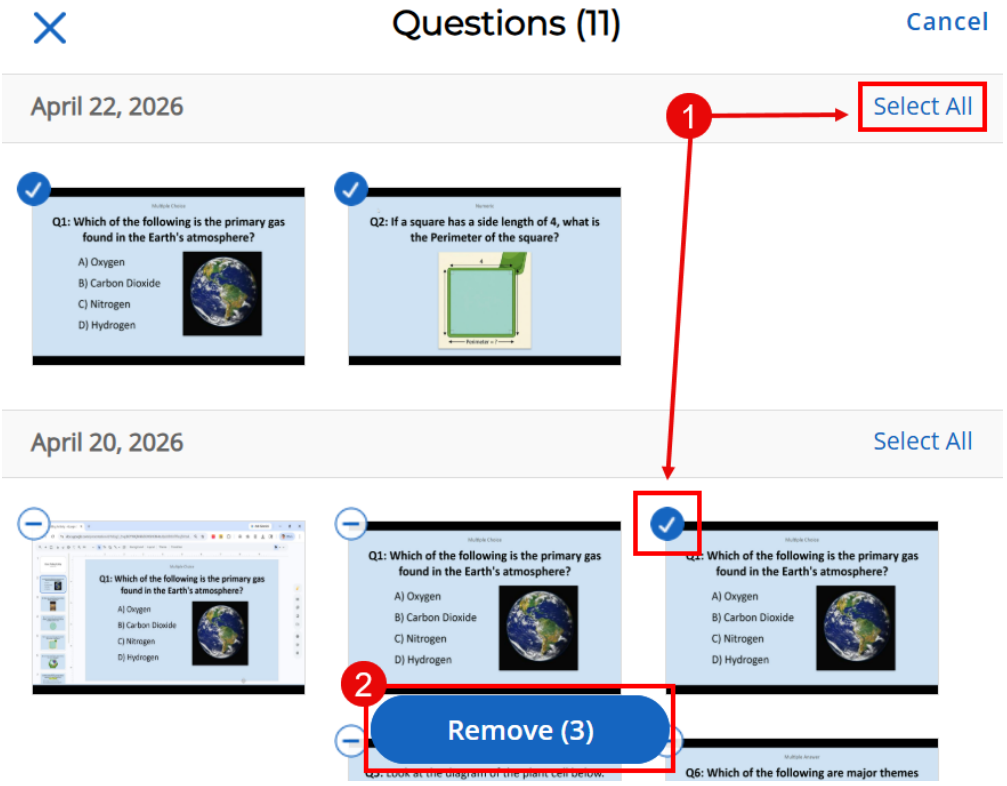
1. Select **Study Tools** in your course.
2. Click **Manage questions**.



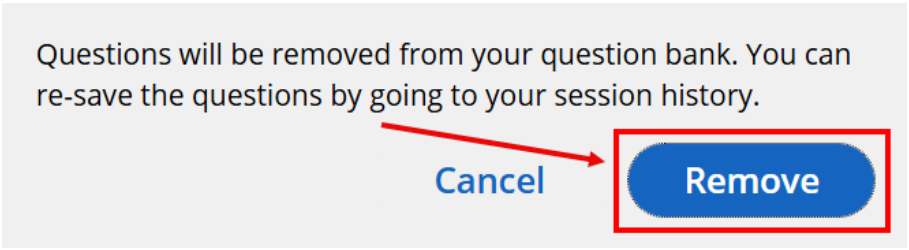
View your marked questions, organized by class date. Click **Edit** to remove questions.



1. Click any **question** or **Select All**.
2. Click **Remove**.



Click **Remove** to confirm.



Questions will be removed from your question bank. You can re-save the questions by going to your session history.
