

New Toshiba Printers - Cannot Print

Jeff Clark - 2020-11-24 - Network and Connectivity

If you are experiencing an issue where you cannot print the new printers on a PC, complete the following steps:

1. Locate the Search Bar in the lower left on the Tool Bar on the bottom of your screen
2. In the Search Bar, type GPUPDATE

- 3.
4. Hit ENTER

A window may open, but will close when the process is completed. Wait 1-2 minutes and try to print again.

5. **IMPORTANT** - You **MUST** Restart your computer at this point
