

## OwlMed: Calendar Feeds

Marcelle Gornitsky - 2024-06-14 - OwlMed and Canvas

# How to Add your OwlMed Calendar Feed (Public) Google, Apple, Outlook, iOS options

- **Public subscriptions** are convenient because they can update your Calendar.
- There is no password protection; your Calendar information is technically open to the public.
- To access your Calendar, other Users must know the specific URL, so your personal information is still protected.

The screenshot shows the 'Profile Manager' interface for 'Personal Settings for Will Bertson'. The 'ICS URL' field is highlighted with an orange box, containing the text: `http://demo.lcmsplus.com/lcms/calDav/index.php/Demo/calendars/newdemostudent/default?export`. Below it, the 'Enable Public Calendar Feed' dropdown menu is also highlighted with an orange box and set to 'Yes'. Other visible settings include 'User Name: Will Bertson', 'Pronouns: they/them/theirs', 'Default Calendar View: Weekly', 'Security Level: 10', and 'My Time Zone: America/New\_York [-5.0]'. A 'Save Profile' button is located at the bottom of the settings form.

From the Edit Profile page:

- Copy the ICS URL link.
- Set Enable Public Calendar Feed field to Yes.
- Click Save Profile button.

For faculty, the calendar feed includes all events for which that faculty member is listed as an instructor. For students, the calendar feed includes all of the events for which that student is enrolled.

### Google Calendar Web Version

The screenshot displays the Google Calendar web interface. On the left, there is a 'Create' button with a plus sign icon. Below it is a calendar for June 2020, with the 8th highlighted. To the right of the calendar is a search bar labeled 'Search for people'. Below the search bar is the 'My calendars' section with a dropdown arrow. Underneath is the 'Other calendars' section, which has a plus sign icon circled in orange. A dropdown menu is open from this plus sign, listing several options: 'Subscribe to calendar', 'Create new calendar', 'Browse calendars of interest', 'From URL' (which is highlighted with an orange box), and 'Import'. The main calendar view on the right shows a weekly grid for Sunday, June 7th, with time slots from 8 AM to 3 PM.

- Open Google Calendar,
- Click the + sign on Other Calendars.
- Select From URL.

Sync Google Calendar

## From URL

URL of calendar

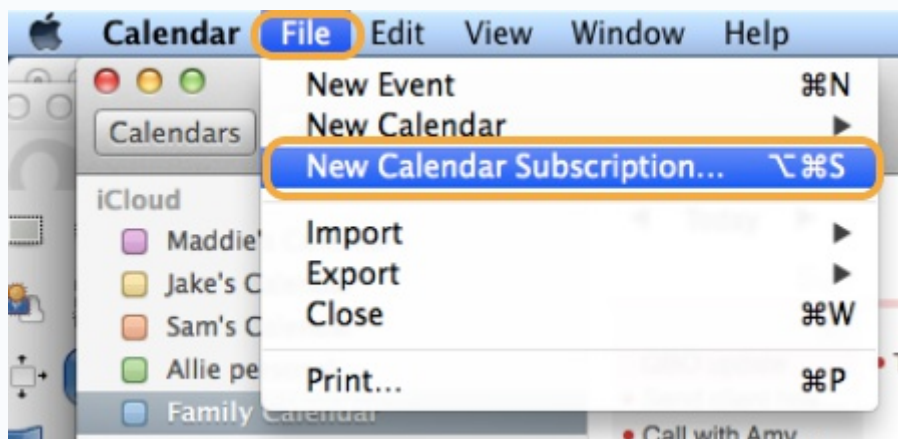

Make the calendar publicly accessible

You can add a calendar using the iCal format by its address.

Add calendar

- Paste the ICS calendar link into the URL field.
- Click Add Calendar.
- The Calendar is now synced with Google Calendar.

## Apple Calendar

- Open Apple Calendar.
- Click File.
- Select New Calendar Subscription.

## Sync Apple Calendar

- Paste the ICS calendar link in the Calendar URL field.
- Click Subscribe button.
- The Calendar is now synced with Apple Calendar.

## Outlook Calendar

- Click on Add Calendar.
- Select Subscribe from Web.

We recommend completing the set-up process in the web version of Outlook rather than the desktop application.

## iOS Calendar

- Click on the Settings App.
- Select Mail, Contacts, Calendars.
- Click Add Account.

#### Add Subscribed Calendar

- Click Other.
- Select Add Subscribed Calendar.
- Paste the ICS calendar link in the Server field.
- The Calendar is now synced with iOS calendar.
