OwlMed: Download Materials

Samantha Starr - 2025-06-20 - *M1 Student Materials*

Downloading Course and/or Event Materials

These handy tools for selecting and downloading materials are available in the Calendar, Course and Event screens.

Related Materials Menu

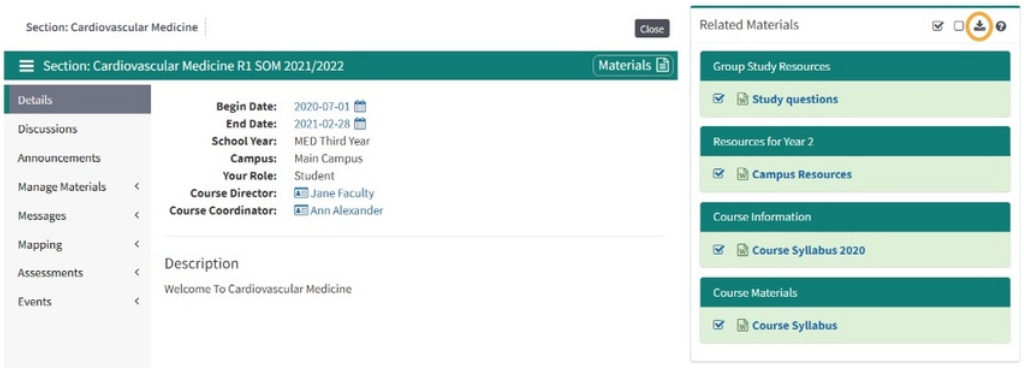

1. Select All: All available documents or select only certain ones by using the check box.
2. Download: The documents are compressed in a convenient .zip file format.
3. Deselect All: This will clear all previously selected documents.
4. Materials Icon: This will toggle Related Materials on or off the screen

TIP: The ? icon is our inline Help for the current screen.

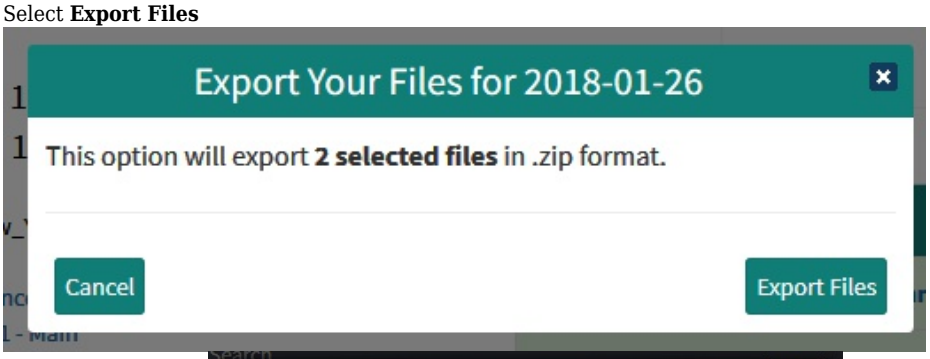

NOTE: In order to download in iOS from Chrome you must also allow pop-ups and give Chrome permission to download to your device.

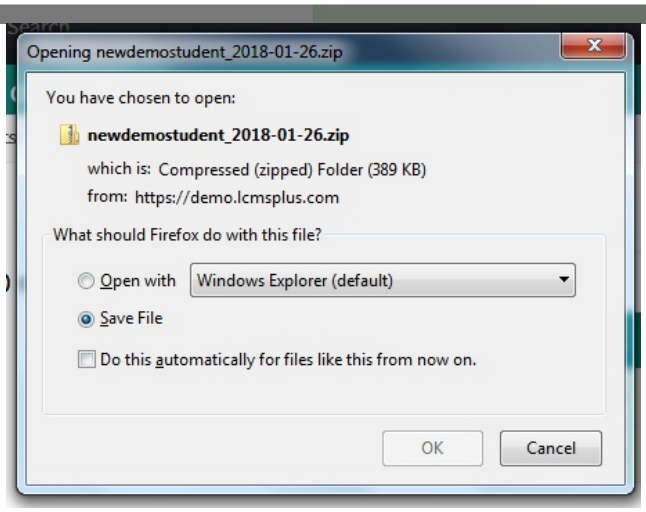

Download Materials

1. After selecting the materials you wish to download, click the **Download** icon.

2. Select **Export Files**

3. Click **Save** to device
4. Check **Save File**
5. Click **OK**
