

## OwlMed: Download Materials

Samantha Starr - 2024-06-14 - \*M1 Student Materials\*

### Downloading Course and/or Event Materials

These handy tools for selecting and downloading materials are available in the Calendar, Course and Event screens.

The screenshot displays the LEO system interface for the course 'Section: Cardiovascular Medicine R1 SOM 2021/2022'. The main content area shows course details such as 'Begin Date: 2020-07-01', 'End Date: 2021-02-28', 'School Year: MED Third Year', 'Campus: Main Campus', 'Your Role: Student', 'Course Director: Jane Faculty', and 'Course Coordinator: Ann Alexander'. A 'Materials' icon is highlighted with a callout '4'. The 'Related Materials' panel on the right lists various resources, including 'Group Study Resources', 'Study questions', 'Resources for Year 2', 'Campus Resources', 'Course Information', 'Course Syllabus 2020', and 'Course Materials'. Callouts '1', '2', and '3' point to the 'Select All' checkbox, the download icon, and the 'Deselect All' checkbox, respectively.

1. Select All: All available documents or select only certain ones by using the check box.
2. Download: The documents are compressed in a convenient .zip file format.
3. Deselect All: This will clear all previously selected documents.
4. Materials Icon: This will toggle Related Materials on or off the screen

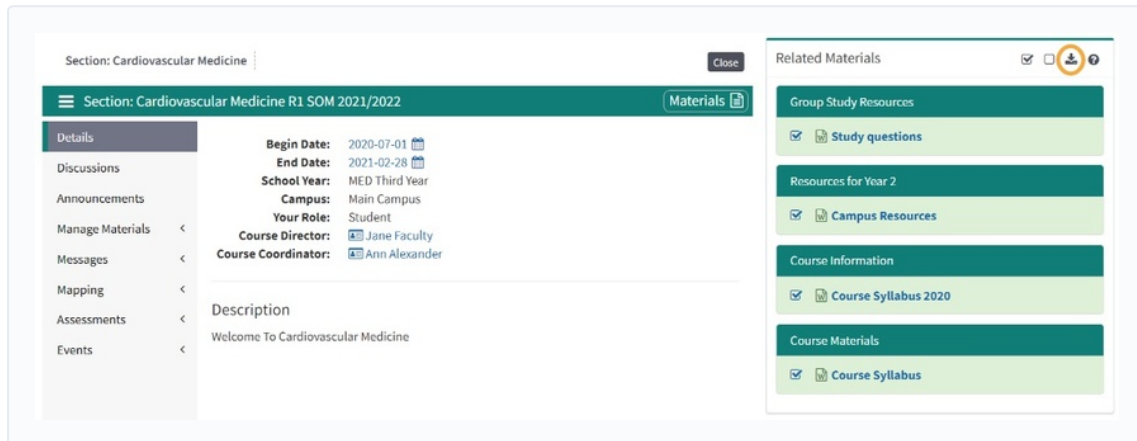

**TIP:** The ? icon is our inline Help for the current screen.

When using Chrome in iOS, we recommend using the Related Materials download tool described below, selecting the file(s) you would like to download. This will allow you to export the file(s) into a .zip file format which can be saved to a specified file on your device or available in your Chrome downloads file.

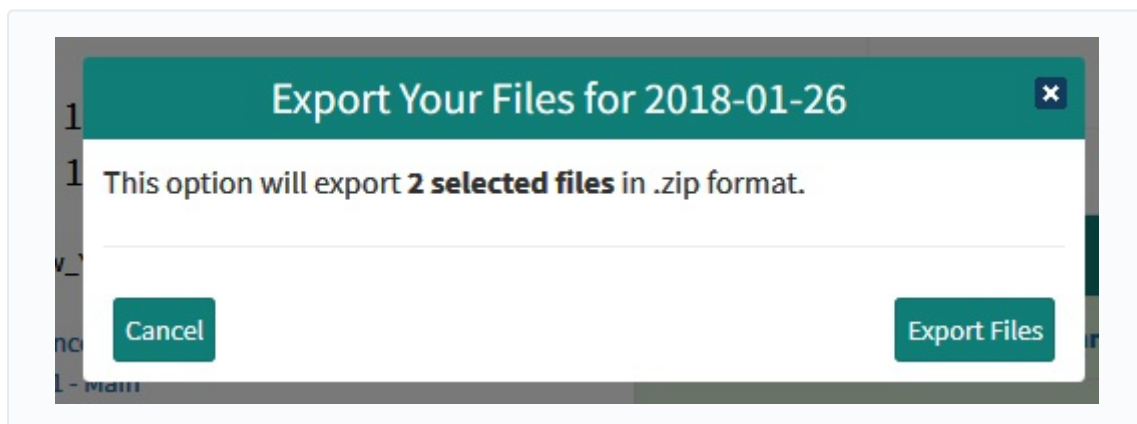

**NOTE:** In order to download in iOS from Chrome you must also allow pop-ups and give Chrome permission to download to your device.

## Begin Download

After selecting the materials you wish to download, click the Download icon.

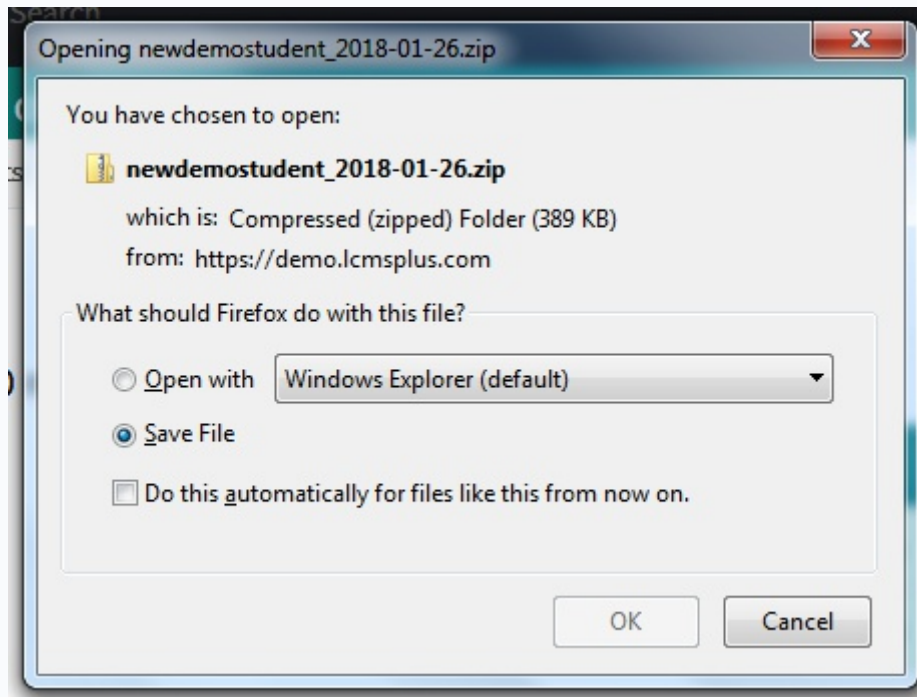

## Export Files

## Save to device

- Check Save File
- Click OK
