

Presentation Software: Logitech Spotlight

Luis Norda - 2023-10-20 - Instructional Resources

Presentation Software: Logitech Spotlight

Timer

- Track presentation time and set vibration alerts.

Pointer

- Toggle pointer modes and customize the size of your highlight and magnify overlays.

Custom control

- Use Logitech Presentation to configure Spotlight for blanking the screen, gesture-controlled scrolling, volume adjustments, and more.

Sleep mode protection

- Spotlight keeps your computer awake while you present.

Battery alerts

- Receive an on-screen notification when your battery is running low.

Operating range

- Move and present freely from up to 30 meters/100 feet.

Dual connectivity

- Simply plug in the USB receiver or pair via Bluetooth. To pair, press and hold pointer and back buttons for two seconds.

Fast charge

- One minute gives you three hours of presentation.
