## Using Globus to transfer files

Brian - 2021-01-26 - [Network and Connectivity](#)

Accessing HPC Storage via Globus.

Go to <https://www.globus.org> and click the Login button in the top right.

Find Florida Atlantic University from the list of Organizations and click Continue

### Log in to use Globus Web App

---

Use your existing organizational login

e.g., university, national lab, facility, project

Florida Atlantic University

Continue

Globus uses CI Logon to enable you to Log In from this organization. By clicking Continue, you agree to the [CI Logon privacy policy](#) and you agree to share your username, email address, and affiliation with CI Logon and Globus. You also agree for CI Logon to issue a certificate that allows Globus to act on your behalf.

OR

 Sign in with Google

 Sign in with ORCID iD

Didn't find your organization? Then use [Globus ID to sign in](#). ([What's this?](#))

Next, Select Access through your institution.

## Sign in

Email or 16-digit ORCID iD

example@email.com or 0000-0001-2345-6789

Password

**SIGN IN**

**Forgot your password or ORCID ID?**

Don't have an ORCID iD yet? [Register now](#)

or

**Access through your institution**

**Sign in with Google**

**Sign in with Facebook**

Then type in Florida Atlantic University in the Organization's name field and hit Continue

## Access through your institution

You may sign into the ORCID Registry using institutional accounts you already have, like one from your university. If you don't already have an ORCID iD, you will be prompted to create one. [Learn more about different ways to sign in to ORCID.](#)

Organization's name

[Go back](#)

[CONTINUE](#)

Next you will be prompted for FAU Single Sign-on.

Once you are logged in, type in fauhpc in the Collection field and select fauhpc#koko as shown below. If you are prompted for authentication, please use your FAU HPC account credentials for access.

New Folder

This folder is empty.

After finding your end point, transfer the files from your globus connector to Koko. If you do not have the Globus Connect client installed, there is a link on this search page to download it. You do not need to keep the webpage open once the transfer begins, the local client connectors will handle the transfer in the background. The PC on your side with the connector will need to stay on during this time though.
