Search

Find my files, permissions

Update & Security

Windows Update, recovery, backup

1. Click Check for Updates.

1. If there are any outstanding Windows 10 updates, they must be completed before Windows 11 will install. This may require multiple computer reboots to complete.

2. You will see Windows 11, version 24H2, this download may take up to an hour or more if your internet connection is slow.

3. Once completed, you will be prompted to reboot your computer, this reboot process will take up to an hour to finish.
