## WIFI Update

2024-09-10 - Alain Rodriguez - General

**EDUROAM** and **FAUWPA2** will be updating it's certificate tonight at 10PM, If you encounter a prompt tomorrow when connecting to the Wi-Fi asking to "trust the certificate," you are safe to do so. If you get the message that you are unable to connect, try to "forget" the network on your device and reselect it. If you encounter any issues please contact COM-IT at [comhelpdesk@health.fau.edu](mailto:comhelpdesk@health.fau.edu)
